My Talking Tom is a virtual pet game featuring the star of Talking Tom Cat and Talking Tom Cat 2. You have to keep Tom happy by feeding him, patting him, taking him to the toilet, putting him to sleep, and playing games with him. More interactive than everMy Talking Tom retains the same basic features as the Talking Tom Cat app, but takes things a little longer, giving you a lot more to do and casting you more in the role of caretaker. You can still do all the basic things you can in Talking Tom Cat and other Outfit7 talking animal games, namely getting Tom to repeat what you say in a high-frequency voice and interact with him by touching him in different ways. But the format of My Talking Tom now feels more like the virtual pet game Pou. There is more to do with your feline friend, such as playing Play, customize his appearance, choose food, and decorate Tom's house of objects from the store. There are mini-games in My Talking Tom, such as whack-a-mole, which give you the chance to win coins, as well as satisfy Tom's entertainment needs. How to play My Talking TomBare like in Pou (and tamagotchi for that matter), your pet in My Talking Tom has certain 'needs' that need to be met. These are represented by round meters at the bottom of the screen that slowly decompose and must be replenished by performing a specific action. The principle is simple to understand and when you first play My Talking Tom the concepts are well demonstrated for you. The four needs meters are: entertainment (refilled by petting Talking Tom or playing mini-games), food (refilled by dropping food in his mouth), bladder (refilled by taking him to the toilet) and fatigue (refilled by putting Tom to bed and turning out the light). To perform one of these actions, simply tap the corresponding meter icon. What does he look like? The graphics and the overall presentation in My Talking Tom haven't evolved much since Talking Tom Cat 2. The feline pretty much still looks the same (though you can customize him more) and his squeaky voice is identical. Also, it appears that Tom is the only character who shows up in the game (for example, there is no sign of his girlfriend Talking Angela, or his nuisance neighbor, Talking Ben the Dog).One interesting feature of My Talking Tom is the ability to visit other players' houses and check out how they have decorated theirs. You can also look for treasure chests where you can turn up more coins. There's also a mini-game where you have to guess what Tom is wearing, which is pretty fun, especially for younger players. Purrrfect! You're a fan of Talking Tom Cat or Pou, you'll enjoy My Talking Tom as it mixes the best elements of the two. However, some may find the process of constantly giving attention to the cat a little dull and repetitive. Everything is sweeter with kittens, and nothing proves this more than My Talking Tom. When an adorable bipedal feline featuring the famous Talking Tom finds its way into your home and heart, it becomes your sacred duty to help him lead a happy and fulfilling life. Make sure he eats right, maintain a tidy home for him, and remember to play games to keep him healthy and active. It will not be easy; each cat has a mind of its own after all. You will need to measure your new pet's general behavior to find out what necessities need to be met soon. There is a lot to take in and there will be a lot of hard work ahead for you, but you can put a price on the joy and love a kitten can bring. Customize your Tom This is your Talking Tom. This means that his appearance is yours to change as you wish. My Talking Tom gives you an incredible number of ways to make a Tom that looks unique from everyone else's. Give your cat a separate name. Choose from different fur patterns and eye colors. Dress up your Tom with all sorts of wild and crazy clothes, hats and glasses. Put a full head of human-like hair on your cat. Paint funky and cute designs on his coat. Splendor up your kitten home. Buy him various beds, wallpapers, chairs and even toilets. Tending to Tom's Needs Your Talking Tom isn't just a bundle of statistics that wax and wane in your mobile device's memory; He is a living and breathing creature with a unique personality! Work with him and heed the way he communicates with you and he will live a long and happy life. Features adorable and lifelike facial expressions and body language. Read your pet's behavior to know what to do next. Feed your Tom a wide range of foods. Look what he likes and what he can't stand. Watch your cat grow from a little kitten to a mature adult. Pet your cat with a few beats of your finger on the screen. Warm your heart to his loving purr. Play some whack-a-mouse to earn coins that can buy Tom all sorts of things. Put your cat to bed when he starts to feel tired. Escort him to the bathroom when he can't hold it anymore. The Purr-fect Game My Talking Tom is a charming little virtual pet with lots of character.
